

The Ag Data Conference

Unlocking the potential. Navigating the complexities.

Designed to help farmers address the opportunities while navigating the challenges to harness the power of data to further optimize their operations and bottom lines.

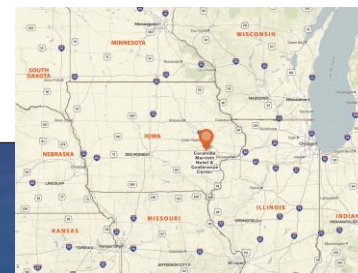

Attendees will walk away with immediate action items to implement, while gaining a better understanding of where we're headed in the coming years.

- Second annual event in 2017
- Targeting large-acre producers
- Two day, editorially driven conference led by Corn+Soybean Digest, Farm Industry News and Farm Futures

THE AG DATA CONFERENCE™

Location is central to Midwest
and easy travel destination from
