Keep all-important text/call to action/logos above the bottom quarter of creative space and below the top 60 pixels of creative space (approximately 200-250 bottom and 60 top pixels that may not be seen on all monitors). If you wish to accommodate widescreen monitors (1700 pixel width max allowed), follow steps 1 and 2, then change your canvas width to 1700 pixels. You may place any design elements on the outsides of the towers, but please keep your important content (message, call to action, etc) within the original 155 pixel wide towers.
